

Water & Wastewater Division

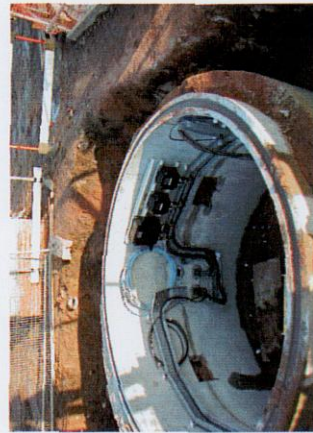

Farebrother have been involved within the Water & Wastewater Industry for over thirty years and are a recognised leader in the field of electrical contracting offering a complete range of services. During 2004/5 we have been associated with AMP3 work for United Utilities completing projects for all three framework consortiums in excess of £1.2m. Our versatility, commitment and attention to Health & Safety has enabled Farebrother to build a strong working relationship with clients, end user and staff in bringing projects to completion on time and to budget.
